## OBSERVER Installation Procedures

---

Before you start the installation process, it is recommended that you close all other applications.

---

► **To install OBSERVER :**

1. Insert the Installation CD in your CD drive. The installation process starts.
2. From the menu, choose **Install Product**.
3. From the submenu, choose your product.  
In case the installation will not start automatically, browse the CD, choose CDBrowse.exe and follow steps 1 and 2 again.
4. Click **OK**.
5. Close all Windows Programs and click **Next**. The Software Agreement screen opens.
6. After reading the end-user license agreement, click **Yes**. The **User Information** screen opens.
7. Enter your name and company name in the respective fields. Click **Next**. The **Registration Confirmation** dialog appears.
8. Click **Yes**. The Choose Destination Location dialog opens.
9. Select a destination folder by clicking the Browse button, or accept the default destination. Click **Next**. Setup installs OBSERVER in the selected location. The Setup Complete dialog opens.
10. Click **Finish**. Setup is completed. A folder called **OBSERVER** appears on your Desktop

# Initial OBSERVER Configuration

Before working with **OBSERVER** you must configure the software to work with your modem, your video, and your site information. The first time you start **OBSERVER** the **Setup Wizard** greets you to help you configure the software.

## ► To Setup the **OBSERVER** Software:

1. Start **OBSERVER** - do one of the following:
  - On the Windows **Start Menu**, Click **Start > Programs > OBSERVER > OBSERVER** .
  - On the Windows **Desktop**, open the **OBSERVER Folder** and **Click** on the **OBSERVER** icon  
The Setting Up The System screen opens.
2. Click **Next**. The Modem screen opens.
3. Select your modem from the drop-down list of modems.
4. Click **Next**. The **Your Site Information** screen opens.
5. Enter the required information in the spaces provided for **Site Name**, **Phone Number**, and **Details**.
6. Click **Finish** to save your settings. The **OBSERVER** Setup Wizard closes.
